

Draft HRM Urban Forest Master Plan
Stakeholder Focus Group Meeting
Tuesday, October 25, 2011
Kenneth C. Rowe Management Building
6100 University Avenue, Halifax
Executive Training Room - 3087, 3rd Floor
5:30-8:00pm

HRM and Dalhousie University have developed a Draft Urban Forest Master Plan (UFMP) to ensure a sustainable future for our urban forest. The Plan will provide a way forward for the stewardship of trees in the urban forest. HRM's urban forest includes ALL trees within the urban core. Street trees, park trees, trees on private and public land all make up our urban forest.

Since 2007, HRM staff from Real Property Planning and Transportation and Public Works have been working with a team from Dalhousie University's School for Resource and Environmental Studies (SRES) to develop the UFMP. The Dalhousie research team is led by Dr. Peter Duinker, Director of SRES, and includes his graduate research students.

Please join us for a UFMP presentation and discussion. A light meal will be served at 5:30pm. The presentation will commence at 6:00pm. Registration for this event is limited to 30. Please register at: ufmp@halifax.ca no later than Monday, October 24.

For further information please contact John Charles, HRM UFMP Project Manager at: 902 490 5771.
