

Halifax Regional Municipality

Legend:

- Streets with high speed and/or volume of automobile traffic. Such streets are only identified on this map where there are few alternatives for cyclists. Novice riders use caution.
- Streets which are considered suitable for cyclists of intermediate skill level. Traffic is generally moderate, connections are direct, but cyclists must "Share the Road" with cars.
- On-Street Painted Bike Lane or Paved Shoulder (1.2 - 1.5m of road space designated exclusively for cyclists).
- On-Street Wide Curb Lane (Lane closest to the curb is 4.2 - 4.5m wide instead of standard 3.5m wide lane width).
- Local or quiet streets with generally low volume and speed of automobile traffic. Connections may be less direct, but may be more suitable for novice riders who are less comfortable riding in traffic.
- Active Transportation Trail (3-4m wide, paved, winter maintenance)
- Multi-purpose Trail (variable width, generally gravel surface, no winter maintenance)
- One-way street
- Hill/Steep Hill (Arrow points up hill)
- Caution-area requiring special attention.
- Pedestrian bridge/tunnel with stairs
- Pedestrian bridge/tunnel
- Bicycle lockers for lease call 869-4270 for Cobegard & Sackville Terminals; 490-4542 for Portland Hills Terminal
