

Focusing on Recreation

In this month's Beacon article, I want to focus on recreation, which has been a priority for me in our community. After many hours spent meeting with staff and gathering information, we now agree to the need for a re-evaluation of recreational programming and service delivery in the Eastern Passage/Cow Bay area.

Your input is required to help determine how to best meet the recreational needs of our community. By way of a survey, I am requesting that you take the time to participate, and to share your views and opinions about this matter. The survey will be available until the end of October. With your cooperation, we will be able to collect enough information to make a convincing case that will affect change.

I encourage you to take the time to get involved in this study. It is something that you as residents have asked for and I am happy to be bringing it to you now so you can help me to help you. Recreation is for everyone, all ages and all activity levels. Everyone's input will matter.

To participate, please fill out the survey we have included in this month's edition of The Beacon, or call **490-5713** or email: CFMP@halifax.ca.

It is a pleasure to be working together with you on this important initiative. Thank you for your support and participation in bringing the needs of our community forward.

Jackie
