

Metro Transit's Public Information Session for the Lacewood Terminal Relocation Study

Metro Transit and Delphi MRC Consulting will be holding a Public Information Session as part of the Lacewood Terminal Relocation Study.

The existing Lacewood Terminal on Willet Street can no longer accommodate the increasing needs of HRM residents in the area. The results of this study will determine the most appropriate site for Metro Transit's new facility.

We invite you to attend the meeting, which will consist of a brief introduction from staff, further information on the project process from the consultants, followed by an open house format so that interested residents can ask questions and have further discussions with staff and the consultants.

The public meeting will be held on Monday, January 25, from 7 to 9 pm at Halifax West High School Cafeteria, 283 Thomas Raddall Dr. Halifax.
