Megan Leslie, MP
2207 Gottingen Street, Unit 1
Halifax, NS B3K 3B5

Dear Ms. Leslie:

I write to you on behalf of the residents of Chebucto Head Road. As you are doubtless aware there is a long history with regard to responsibilities for the maintenance, snow removal and ongoing repair of this road; or more accurately the last of these services.

I have enclosed correspondence from Michele Raymond and also correspondence to and from the provincial Minister of Transportation and Infrastructure. It is clear that the Provincial government does not want to accept any responsibility for this road. In essence the residents are caught in the middle and to this day have to use their own resources to have some degree of safe access. According to land ownership records this property remains in the possession of Transport Canada.

At your earliest convenience would you please discuss this situation with the appropriate Federal minister and staff to have this rectified. This has gone on far too long and if this were held in private citizen hands we would have been able to apply legislation to have the necessary work done; however, the Federal government is exempt from our by-law.

I await your response.

Yours very truly,

Stephen Adams
Councillor, District 18
Spryfield - Herring Cove
