Main Road, Eastern Passage – Water Main Maintenance

(Monday, August 22, 2011) - Attention motorists, on Tuesday, August 23rd and Wednesday, August 24th water main maintenance work will take place on Main Road in Eastern Passage between Norah Lane and Shore Road. During construction, there will be stop and go traffic. Motorists should expect delays.

The duration of construction is 1 day.

The hours of work will be 1:00 PM to 6:00 PM., approximately on August 23rd and 7:00 AM to 12:00 PM, approximately on August 24th.

The work is part of Halifax Water's Cathodic Protection Program. Cathodic Protection is a progressive technology that reduces corrosion of water mains and water services thereby extending the service life of the pipe.

Experienced traffic control personnel will be on-site to ensure smooth traffic flow. On site personnel will also maintain communication with local residents and businesses to help minimize disruption.

Motorists are asked to use alternate routes where possible, and to proceed carefully through the work zone. Motorists are also reminded that speed fines double in work zones.

We apologize for any inconvenience this necessary infrastructure improvement work may cause.
