

Public Service Announcement

Water Main Break-Herring Cove Rd.

(Tuesday, November 22, 2011) – Crews remain on site of the 12 inch water main break at the intersection of Herring Cove Rd. and Maplewood Dr. The break is the result of a contractor impacting the pipe.

The estimated time of repair is late this evening. Approximately 8-10 homes in the vicinity of Maplewood Dr. and Winchester Ave. are without water service. Some customers in the Spryfield may experience low water pressure.

Motorists are asked to avoid the area as traffic is backed up, but if they must drive through the work zone, to proceed carefully. Stop and go traffic is in place. **Motorists are also reminded that speed fines double in work zones.**

We apologize for any inconvenience to our customers.
