

Dartmouth Cove comprehensive plan

February 20-24 2012

plan+design workshop

be a part of the
Vision

The potential transformation of Dartmouth Cove presents a tremendous opportunity to pioneer a sustainable, mixed-use and vibrant neighbourhood that can enhance the waterfront, breathe new life into Downtown Dartmouth, and provide great amenities for the surrounding communities. It is no less than a city-building and image-defining opportunity for Dartmouth and HRM as a whole.

Be a **part of the vision** by participating with the Project Team in an exciting and intensive planning and urban design workshop. The purpose of the workshop is to generate ideas and plans for Dartmouth Cove over several days. A number of events and opportunities are planned for you to participate and to have your say.

**For more information on the location and schedule of events,
please see the back of this invitation.**

For more information on the project and to provide feedback on-line,
