# Item No. Audit and Finance Standing Committee April 18, 2018

TO: Chair and Members of Audit and Finance Standing Committee

SUBMITTED BY: Original signed

Bruce Zvaniga, Acting Chief Administrative Officer

Original signed

Jerry Blackwood, Acting Director of Finance and Asset Management/CFO

**DATE:** March 22, 2018

SUBJECT: Investment Activities – Quarter ending December 31, 2017

## **ORIGIN**

Quarterly report of investment performance and adherence to approved Investment Policy.

## **LEGISLATIVE AUTHORITY**

Section 121(1) of the HRM Charter requires that funds be invested pursuant to an Investment Policy adopted by Council and approved by the Minister of Municipal Affairs (the Minister) or invested pursuant to the Trustee Act. Where HRM has chosen to adopt an Investment Policy and the Minister has approved the Policy investment activities are governed by this Policy.

## **RECOMMENDATION**

It is recommended that the Audit and Finance Standing Committee forward this report to Halifax Regional Council as an information item.

# **BACKGROUND**

The HRM Investment Policy calls for quarterly reporting by the Treasurer to Council and the Investment Policy Advisory Committee (the Investment Committee). The report for the quarter ending December 31, 2017 has been reviewed by the Investment Committee. A report from the Investment Committee on compliance with the HRM Investment Policy has also been sent to the Audit and Finance Standing Committee meeting of April 18, 2018.

#### DISCUSSION

#### Overall Results

Operating fund investment income for the nine months ending December 31, 2017 was \$1,621,214 versus a projection of \$1,575,000. Although operating cashflows were lower than forecasted, the rate of return for the period was 0.37% which was over the projected rate of return of 0.35%.

#### **HRM Investment Activities**

Mercer has discontinued its Investment Consulting Survey of Canadian Institutional Pooled Funds. HRM had been using this survey to compare returns with the industry. We have also been including the RBC Investor and Treasury Services Pooled Fund survey to the Investment Committee, which is very similar to the Mercer Survey. We will be using this survey going forward. Please see the table below with the results using the RBC Survey.

Money Market Funds	3 Months	1 Year
-	(to Dec 31, 2017)	(to Dec 31, 2017)
5 <sup>th</sup> Percentile	0.34%	1.09%
1 <sup>st</sup> Quartile	0.32%	1.02%
Money Market Median	0.29%	0.85%
3 <sup>rd</sup> Quartile	0.26%	0.78%
95 <sup>th</sup> Percentile	0.19%	0.54%
HRM	0.37%	1.11%

Relative performance was again quite positive; the 3 month and one year returns were above the 5<sup>th</sup> percentile. These returns are before any allowance for fees that could be paid for external management. The investment bank accounts continue to be largely responsible for this relative performance.

As shown in the graph below, over the longer term HRM investment performance closely matches the median with fee savings also accruing to HRM.

The quarter saw 2 money market investments made at a total cost of \$51,542,140 with an average term to maturity of 245 days and average individual investment cost of \$25,770,000. This compares to last year when 16 investments were made at a total cost of \$201,773,860 with an average term of 87 days and average individual investment cost of \$12,610,000. The predominant strategy is to allocate funds to the investment bank accounts and monthly rebalance the portfolio using government instruments to manage sector weights.

Funds held in the investment bank accounts, including term deposits, totaled \$286,555,350 by the end of the quarter. Incremental income over Bankers Acceptances (BAs) and Bearer Deposit Notes (BDNs), using a rate of 1.27% as a proxy for the BA and BDN rates, was \$188,194 for the quarter.

The cumulative incremental gross investment income from the 2007 policy change that expanded the non-government sector weight was \$2,801,072 or a \$185,831 increase during the quarter.

# HRM Short Term Bond Pool

There was a \$1,000,000 bond maturity in December 2017. At the end of the quarter the bond pool consisted of \$10,000,000 of bonds with yields ranging from 1.94% to 2.58% with a simple average yield of 2.27%. The term to maturity ranges from June 2018 to December 2018. Staff will continue to look for opportunities to add to the bond portfolio.

## Cash Flows

Cash available for operating is \$20,000,000 lower than the previous year due to lower than expected operating cashflows and a higher allocation of funds to reserve balances.

#### Subsequent to End of Reporting Quarter

On January 17, 2018 the Bank of Canada raised its target for the overnight rate to 1.25%. On March 7, 2018 they maintained this target.

## Outlook & Strategy

The investment bank accounts, which are for the most part linked to the commercial bank prime rates, are continuing to provide better returns than are available from Bankers Acceptances and government instruments.

The dominant strategy will again be to maximize returns from the investment bank accounts, keeping in mind that their liquidity adds a safety factor, while looking for opportunities in the government half of the portfolio.

### Policy Compliance

#### Objectives:

Preservation of Capital - There was no loss of capital during the quarter.

<u>Liquidity</u> – Overdraft charges were not incurred and sufficient cash was available to meet all requirements. The funded ratio of the reserves at quarter end was 100%.

<u>Competitive Return on Investments</u> - The rate of return was above the 5<sup>th</sup> percentile of the comparable benchmark for the quarter ending December 31, 2017 before allowing for fees that could have been paid to an external management firm. Accordingly, staff maintain that the rate of return objective of the Policy was met.

#### Strategies:

<u>Diversification of Investment Portfolio</u> - Staff believe that diversification has been adequately maintained under the constraints of the Policy.

<u>Regular Review of Performance</u> - Performance data continues to be reported to the Investment Policy Advisory Committee.

<u>Risk Management Approach</u> – In implementing investment decisions staff seek a balance between the objectives of the Policy and the risks inherent in markets to look to achieve an optimal rate of return.

## **FINANCIAL IMPLICATIONS**

As discussed above, operating fund investment income for the nine months ending December 31, 2017 was \$1,621,214 versus a projection of \$1,575,000. Although operating cashflows were lower than forecasted, the rate of return for the period was 0.37% which was over the projected rate of return of 0.35%.

## **RISK CONSIDERATIONS**

There are no significant risks associated with the recommendations in this report.

#### **COMMUNITY ENGAGEMENT**

Investment activities are reported quarterly to the Investment Policy Advisory Committee. The majority of members of this Committee (4 of 6) are volunteers from the general public. The Committee reports to the Audit and Finance Committee of Council quarterly on staff's compliance with the Investment Policy. In addition, the Committee conducts an annual review of the Investment Policy and makes recommendations for any changes considered appropriate.

Canadian Imperial Bank of Commerce & Its Guarantees

Royal Bank of Canada & Its Guarantees

Toronto Dominion Bank & Its Guarantees

## Financial Institutions & Corporations (Tier 2):

Desjardins Group Caisse Centrale Desjardins CDP Financial Inc. National Bank of Canada OMERS Finance Trust

#### **Dominion Bond Rating Service (DBRS) Rating Scale**

# R-1 (high)

Short-term debt rated R-1 (high) is of the highest credit quality, and indicates an entity possessing unquestioned ability to repay current liabilities as they fall due. Entities rated in this category normally maintain strong liquidity positions, conservative debt levels, and profitability that is both stable and above average. Companies achieving an R-1 (high) rating are normally leaders in structurally sound industry segments with proven track records, sustainable positive future results, and no substantial qualifying negative factors. Given the extremely tough definition DBRS has established for an R-1 (high), few entities are strong enough to achieve this rating.

# R-1 (middle)

Short-term debt rated R-1 (middle) is of superior credit quality and, in most cases, ratings in this category differ from R-1 (high) credits by only a small degree. Given the extremely tough definition DBRS has established for the R-1 (high) category, entities rated R-1 (middle) are also considered strong credits, and typically exemplify above average strength in key areas of consideration for the timely repayment of short-term liabilities.

## R-1 (low)

Short-term debt rated R-1 (low) is of satisfactory credit quality. The overall strength and outlook for key liquidity, debt, and profitability ratios is not normally as favourable as with higher rating categories, but these considerations are still respectable. Any qualifying negative factors that exist are considered manageable, and the entity is normally of sufficient size to have some influence in its industry.
