

P.O. Box 1749 Halifax, Nova Scotia B3J 3A5 Canada

Item No. 2 Halifax Regional Council November 12, 2019

TO:	Mayor Savage a	nd Members of	Halifax Regional (Council

Original Signed

SUBMITTED BY:

Councillor Russell Walker, Chair, Audit & Finance Standing Committee

DATE: October 24, 2019

SUBJECT: Investment Activities – Quarter Ending June 30, 2019

INFORMATION REPORT

ORIGIN

October 23, 2019 meeting of Audit and Finance Standing Committee, Item No. 12.2.1.

LEGISLATIVE AUTHORITY

Audit and Finance Standing Committee Terms of Reference Section 3(c) which states:

The principle role of the Audit and Finance Standing Committee is to provide advice to Council on matters relating to Audit and Finance.

Additionally, Section 4(f) provides that the Standing Committee 'Review as required, any other policies, procedures, forecasts, reports or process as agreed to mutually by the Municipalities CAO and the Committee'.

BACKGROUND

The Audit and Finance Standing Committee received a staff report dated September 9, 2019 pertaining to Investment Activities – Quarter Ending June 30, 2019 at its meeting held on October 23, 2019.

For further information please refer to the attached staff report dated September 9, 2019.

DISCUSSION

The Audit and Finance Standing Committee reviewed the staff report dated September 9, 2019 and approved a motion to forward the report to Halifax Regional Council as information.

FINANCIAL IMPLICATIONS

Financial implications are outlined in the attached September 9, 2019 staff report.

COMMUNITY ENGAGEMENT

The Audit and Finance Standing Committee meetings are open to public attendance, a live webcast is provided of the meeting, and members of the public are invited to address the Committee for up to five minutes at the end of each meeting during the Public Participation portion of the meeting. The agenda, reports, minutes, and meeting video of the Audit & Finance Standing Committee are posted on Halifax.ca.

ATTACHMENTS

Staff report dated September 9, 2019.

A copy of this report can be obtained online at halifax.ca or by contacting the Office of the Municipal Clerk at 902.490.4210.

Report Prepared by: Robyn Dean, Legislative Assistant, Office of the Municipal Clerk, 902.490.6520

Item No. 12.2.1 Audit & Finance Standing Committee October 16, 2019

TO: Chair and Members of (Name of Community Council or Board)

Original signed by –

SUBMITTED BY:

Jacques Dubé, Chief Administrative Officer

- Original signed by -

Jane Fraser, CFO / Director, Finance, Asset Management & ICT

DATE: September 9, 2019

SUBJECT: Investment Activities – Quarter ending June 30, 2019

ORIGIN

Quarterly report of investment performance and adherence to approved Investment Policy

LEGISLATIVE AUTHORITY

Section 121(1) of the HRM Charter requires that funds be invested pursuant to an Investment Policy adopted by Council and approved by the Minister of Municipal Affairs (the Minister) or invested pursuant to the Trustee Act. Where HRM has chosen to adopt an Investment Policy and the Minister has approved the Policy investment activities are governed by this Policy

RECOMMENDATION

It is recommended that the Audit and Finance Standing Committee forward this report to Halifax Regional Council as an information item

BACKGROUND

The Halifax Regional Municipality Investment Policy (the Policy) was adopted by Council April 23, 2002 and was approved by the Minister of Service Nova Scotia and Municipal Relations on May 14, 2002. This Ministerial position was later reorganized and now has the title the Minister of Municipal Affairs (the Minister).

The mandate of the Committee is to recommend an investment policy to Council as well as provide ongoing monitoring of investment activities. Following adoption and approval of the Policy, the activities of the Committee have shifted to the monitoring role as well as annual reviews of the Policy.

Amendments to the Policy, as recommended by the Investment Policy Advisory Committee (the Committee) were approved by Council and the Minister in 2005, 2007, 2008, 2010, 2017, and 2019. Reviews of the Policy by the Committee in 2012, 2014 and 2015 did not result in any recommended changes.

DISCUSSION

The Investment Policy Advisory Committee is pleased to provide this report under the provisions of the Policy. The primary focus of this report will be to report on compliance with the objectives of the Policy.

The three objectives and three strategies of the Policy, stated in order of priority of importance, are as follows:

Objective:

- 1. Preservation of Capital
- 2. Liquidity
- 3. Competitive Return on Investments

Strategies:

- 4. Diversification of Investment Portfolio
- 5. Regular Review of Performance
- 6. Risk Management Approach

The Sector Weight schedule recommended under the 2019 Policy are attached.

At the Investment Policy Advisory Committee meeting of September 9th, the Committee reviewed the information provided by staff in the Treasurer's report to the Committee for the Quarter ending June 30, 2019 and accepts the report and the findings contained in the report that the investment activities reported comply with the Policy.

Overall Results

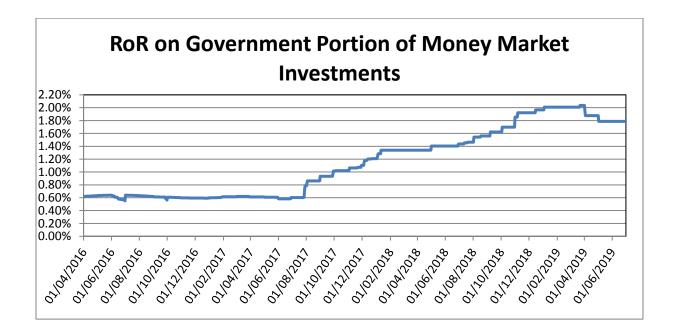

Operating fund investment income for the three months ending June 30, 2019 was \$1,162,917. The actual rate of return was 0.58% for the period.

HRM Investment Activities

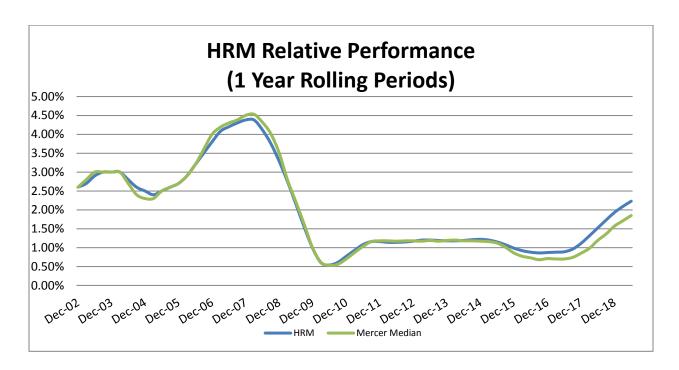

Mercer has discontinued its Investment Consulting Survey of Canadian Institutional Pooled Funds. HRM had been using this survey to compare returns with the industry. We have also been including the RBC Investor and Treasury Services Pooled Fund survey to the Investment Committee, which is very similar to the Mercer Survey. We will be using this survey going forward. Please see the table below with the results using the RBC Survey

Money Market Funds	3 Months	1 Year
	(to Jun 30, 2019)	(to Jun 30, 2019)
5 th Percentile	0.53%	2.14%
1 st Quartile	0.50%	1.98%
Money Market Median	0.47%	1.85%
3 rd Quartile	0.44%	1.75%
95 th Percentile	0.36%	1.43%
Average Return	0.36%	1.84%
HRM	0.58%	2.23%

Relative performance continues to be positive; the 3 month and one-year returns exceed the 5th percentile. These returns are before any allowance for fees that could be paid for external management. The investment bank accounts continue to be largely responsible for this relative performance.

As shown in the graph below, over the longer term HRM investment performance closely matches the median with fee savings also accruing to HRM.

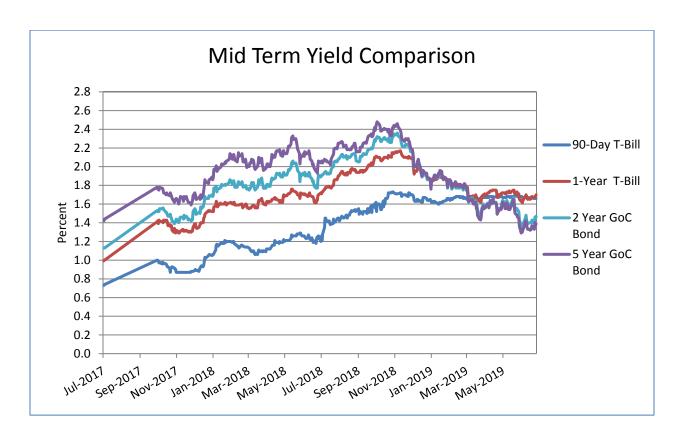

During the quarter, there were five money market investments made totaling \$127,712,600 with an average term to maturity of 290 days and an average cost of \$25,542,520. This compares to last year when 5 investments were made at a total cost of \$99,426,800 with an average term of 145 days and average individual investment cost of \$19,885,360. The predominant strategy continues to see HRM allocate funds to the investment bank accounts and rebalance the portfolio using government instruments to manage sector weights.

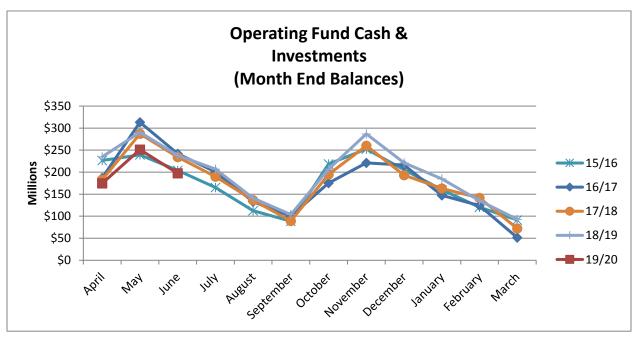

Funds held in the investment bank accounts, including term deposits, totaled \$362,052,060 by the end of the quarter. Using a rate of 1.86% as the three-month proxy for the BA and BDN rate, incremental income for the investment accounts over BA's and BDN's, was \$450,015 for the quarter. The income from our investments provided a quarterly return of 0.58%, and a 12 month return of 2.23%.

The cumulative incremental gross investment income from the 2007 policy change that expanded the non-government sector weight was \$3,749,294.87 including a \$180,613 increase during the quarter. An additional \$166,213 was realized over the quarter due to recent changes made to the investment policy that excludes operational cash requirements from the sector weights.

HRM Short Term Bond Pool

Currently, the portfolio does not contain any bonds. Staff will continue to look for opportunities to add to the bond portfolio.

Investment Policy Changes

As noted in the report from the previous quarter, we received ministerial approval for the proposed changes to the Investment Policy on April 24, 2019. The three significant changes to the policy are:

- 1. Re-balancing will be conducted semi-annually to coincide with cash inflows and will exclude operating cash requirements until the next re-balance
- 2. Increase counterparty limits for Provincial counterparties and Financial Institutions
- 3. Sector weight reporting will be consolidated for the total portfolio

The rebalancing that occurred in early May was done within the guidelines of the new Investment Policy.

Subsequent to End of Reporting Quarter

There is some sentiment that the Bank of Canada may follow the US lead and cut the overnight lending rate in the coming months, but the Canadian economic indicators are generally pointing to steady growth belying the need for such a move. The Treasury team will continue to monitor.

Outlook & Strategy

The investment bank accounts continue to provide effective rates of return when compared to instruments with similar risk. Specifically, these accounts are continuing to provide better returns than are available from BA's and government instruments.

Policy Compliance

Objectives:

Preservation of Capital - There was no loss of capital during the quarter.

<u>Liquidity</u> - No overdraft charges were incurred and sufficient cash was available to meet all requirements.

<u>Competitive Return on Investments</u> - The rate of return was again in the 5th percentile for the quarter ending June 30th, 2019 before allowing for fees that could have been paid to an external management firm. As a result, staff maintains that the rate of return objective of the Investment Policy has been met.

Strategies:

<u>Diversification of Investment Portfolio</u> - Staff believe that diversification has been adequately maintained under the constraints of the Policy.

Regular Review of Performance - Performance data continues to be reported to the Investment Policy Advisory Committee.

<u>Risk Management Approach</u> - In implementing investment decisions staff seek a balance between the objectives of the Investment Policy and the risks inherent in markets to look to achieve an optimal rate of return.

FINANCIAL IMPLICATIONS

As discussed above, operating income for the three months ending June 30, 2019 was \$1,162,917 versus a budget of \$750,000. The actual rate of return was 0.58% for the period.

RISK CONSIDERATION

There are no significant risks associated with the recommendations in this report.

COMMUNITY ENGAGEMENT

Investment activities are reported quarterly to the Investment Policy Advisory Committee. The majority of members of this Committee (4 of 6) are volunteers from the general public. The Committee reports to the Audit and Finance Committee of Council quarterly on staff's compliance with the Investment Policy. In addition, the Committee conducts an annual review of the Investment Policy and makes recommendations for any changes considered appropriate.

Appendix C

Dominion Bond Rating Service (DBRS) Rating Scale

R-1 (high)

Short-term debt rated R-1 (high) is of the highest credit quality, and indicates an entity possessing unquestioned ability to repay current liabilities as they fall due. Entities rated in this category normally maintain strong liquidity positions, conservative debt levels, and profitability that is both stable and above average. Companies achieving an R-1 (high) rating are normally leaders in structurally sound industry segments with proven track records, sustainable positive future results, and no substantial qualifying negative factors. Given the extremely tough definition DBRS has established for an R-1 (high), few entities are strong enough to achieve this rating.

R-1 (middle)

Short-term debt rated R-1 (middle) is of superior credit quality and, in most cases, ratings in this category differ from R-1 (high) credits by only a small degree. Given the extremely tough definition DBRS has established for the R-1 (high) category, entities rated R-1 (middle) are also considered strong credits, and typically exemplify above average strength in key areas of consideration for the timely repayment of short-term liabilities.

R-1 (low)

Short-term debt rated R-1 (low) is of satisfactory credit quality. The overall strength and outlook for key liquidity, debt, and profitability ratios is not normally as favourable as with higher rating categories, but these considerations are still respectable. Any qualifying negative factors that exist are considered manageable, and the entity is normally of sufficient size to have some influence in its industry.
