Community Group - Youth Chebucto Minor Hockey Association – Junior Coach Leadership Program

Junior Coaching is a benchmark for our youth, allowing kids to coach kids gives them an opportunity to feel important and make a difference. The volunteers help instill a love of hockey by participating in the practice plans, demonstrating drills, helping players learn to skate, teaching them to stick handle, and role-modelling a love of the game.

The younger players have someone to look up to and hopefully are inspired to one day become a Junior Coach. We are very proud of the Junior Coaching Program and hope it continues to grow.
