The business case must show how the event would benefit the Municipality and increase tourism and business development in the "shoulder and/or off season" (November to April). The maximum grant award through this program is \$25,000. Preference will be given to applicants that have secured funding from other level/s of government and corporate sponsorship.

10. Room Nights Generated

As highlighted in the application introduction, this program is funded by a hotel levy which aims to support events that generate room nights. Room nights include hotels, motels, university dormitories and/ or any overnight establishment. Please calculate accurately. If you need clarification or assistance on this topic, please contact staff as identified.

Four people sharing one room equals one room.

Room Block (guaranteed rooms) are the total number of rooms booked with the overnight establishment that the event organization books. This includes rooms for the event staff, contracts, artist/ performers, board members and participants (if applicable, e.g. athletes).

Estimated Rooms are the total number of rooms booked that are not included with the Room Block booking. Estimated Rooms are booked externally (e.g. by spectators).

Number of Nights are the total number of nights that the organization is planning to stay in the overnight establishment.

Total Overall Rooms will be calculated based on the total number of rooms booked in the Room Block and the Estimated Rooms combined. The total number of rooms will be multiplied by the total Number of Nights your organization will be staying in the establishment (e.g., if the Room Block is 50 rooms, the Estimated Rooms is 20 rooms, and the total Number of Nights is three nights, the Total Overall Rooms will be 210, which is 70 rooms (50+20) multiplied by three nights.)
