

Marion Lakenman

Marion has been volunteering at Northwood for over 6 years with the last 6 months being very important ones as we experienced a COVID-19 outbreak. Although unable to enter long term care buildings, Marion continued to deliver groceries to our independent seniors who were unable to shop or were afraid to leave their apartments. She supported these seniors with bravery and compassion. Marion volunteers in the Get Connected Calling program providing emotional support and a friendly voice to seniors experiencing loneliness with one special caller she often speaks to several times a day. We are very fortunate to have her.
