

## **Jeffrey Koscik**

Jeff has been and continues to be a mentor and someone our cadets look up to. He creates new educational in-person and online content to teach cadets about engines, physics, history and overall mechanics. His level of enthusiasm and dedication shines through to keep our cadets engaged and hungry to learn more. His dedication to our program benefits youth ages 16 to 18 in ways beyond our cadet program and into their school lives. He gives them encouragement to pursue hobbies and potential careers they hadn't previously considered.
