

Paige Williams

Paige was an integral member of the COVID response in East Preston. Her initiative and willingness to help launch a testing site were admirable. She served on the front lines at the clinic, acting as a greeter and familiar face to residents being tested. She also ensured that Public Health Staff were cared for. When she was not at the clinic, she was delivering packages of supplies to residents in need. Paiges' selfless hours of dedication helped lead her community through a time of crisis. Her actions define what it means to be a servant leader.
