Commercial (COM) as well as the Seaport Special Area which permits both Downtown and HRI uses except residential and gas station uses.

The Committee held a discussion regarding the relationship between these zones and residential areas. Sivak advised that the plan introduces buffering requirements including setback and landscaping for any redevelopments. It was noted that existing developments continue to operate under the non-conforming use policy, but in future they could be redeveloped in a way that is more compatible with the neighbourhood.

Ben Sivak, Manager of Community Planning outlined the Water Access designation designed to protect the character and recreation opportunities of the communities around the Northwest Arm, Lake Banook and Lake Mic Mac by limiting development on infilled water lots.
