Dear Graham,

RE: Request for Tourism Kiosk on Prospect Road (Goodwood) Route 333

I write to you with respect to an opportunity for promoting business and tourist attractions along the Prospect Road (Route 333) near Goodwood. As you are aware, there will be changes made to HRM's By-Law re: signage along this stretch of highway. In essence, many of the signs that exist will be removed with a few being replaced with standardized signage. In an effort to assist local businesses and tourist establishments, I would like to work with your department to build a small kiosk at this entry point to assist local individuals and businesses in promoting what the area has available.

Most tourists travel Prospect Road to visit Peggy's Cove making it one of the most visited tourist attractions in Atlantic Canada; perhaps in the entire country. However, there are so many other beautiful and interesting sites and tourist attractions of which many are not aware. The benefits this kiosk will provide will be immeasurable. In a single stop, visitors could have access to all of the amenities our local communities have to offer.

I am willing to contribute to help in building this kiosk but would need funding to ensure that personnel are available through the provincial tourism department. I look forward to your response and look forward to working with you on this project.

Respectfully,

Councillor Stephen Adams
