---

Halifax Water and the Halifax Regional Municipality will be carrying out major infrastructure projects along the Kearney Lake Road / Hammonds Plains Road area this year. These projects reflect the municipality's commitment to:

- ensuring the integrity of our municipal water and wastewater services,
- completion of the Larry Uteck Interchange Connection,
- road widening and bike lane improvements on Hammonds Plains Road and Kearney Lake Road,
- providing for the long-term, sustainable growth of the Municipality.

Both Halifax Water and HRM recognize that these projects, while necessary, will affect local and area residents, as well as the general public. Halifax Water and HRM request your co-operation and understanding during the 2014 construction season as we work to complete each of these necessary municipal infrastructure projects. The safety of residents and travelers in and around construction zones is top priority, so please use caution around these and all work zones.

Projects taking place during 2014 include:

Larry Uteck Boulevard Phase 3 – anticipated construction April to end of July

Hammonds Plains Road Widening – anticipated construction May to end of August

Kearney Lake Linear Works – anticipated construction early April to end of September

Kearney Lake Road Transmission Main Replacement Phase 2 – anticipated construction early April to October

#### Halifax Water/HRM Project Updates

Future issues of project newsletters will be sent out on a regular basis for the duration of the projects. As localized traffic impacts occur, further updates will be sent out through local media, and posted on our websites at [www.halifax.ca](http://www.halifax.ca) and [www.halifaxwater.ca](http://www.halifaxwater.ca), and sent out via Halifax Water and HRM Twitter feeds.
