Case H00460

Protection of Heritage Buildings:

Options and Financial Implications

Aaron Murnaghan
Principal Planner, Heritage
May 14th 2019

Origin of the Report

THAT the Community Planning & Economic Development Standing Committee request a staff report regarding options and financial implications to enhance support for protection of heritage buildings in HRM, that shall include consultation with the Heritage Advisory Committee as appropriate, and include but not be limited to the following considerations:

1. **Tax relief** - That registered heritage properties could receive an annual grant calculated as a percentage of property taxes paid;
2. **Tax lift** - Upon approval of a major renovation and or restoration project any increase in property taxes that result from the resulting increased assessment would be rebated as a grant for a period of time, for example, 10 years;
3. **Grants** - that the existing grants program would be expanded to allow for increased financial support for residential buildings, a separate program for commercial buildings, and inclusion of privately held institutional buildings in the grant program;
4. **20th Century heritage** - consider changing heritage registration criteria to better encourage registration of outstanding architectural examples from the war years (1918-1945) and create a mid-century category from 1945-1975;
5. **Holding bylaw** - request the province allow municipalities to establish a heritage holding bylaw similar to other provinces, to allow short term protection of important unregistered historic buildings while Council considers possible registration.

October 26th 2017 motion of Deputy Mayor Mason at the regular meeting of the Community Planning and Economic Development Standing Committee:

HALIFAX

Why do heritage buildings need protection?

Expensive to Maintain

- Heritage Buildings and sites require skilled trades and specialized materials that can be expensive and hard to find
- Energy efficiency and mechanical upgrades may be required to bring the building up to modern standards

They Provide Benefit to the Municipality

- Well maintained heritage properties contribute greatly to our tourism industry and our identity as a community, but the bulk of the cost burden falls to property owners.

They are under near-constant threat of redevelopment

- When underlying zoning allows for larger structures, heritage buildings often succumb to redevelopment

HALIFAX

Example: 2146 Brunswick Street

Scope of work: **Slate Roof, dormer repair, masonry repair**

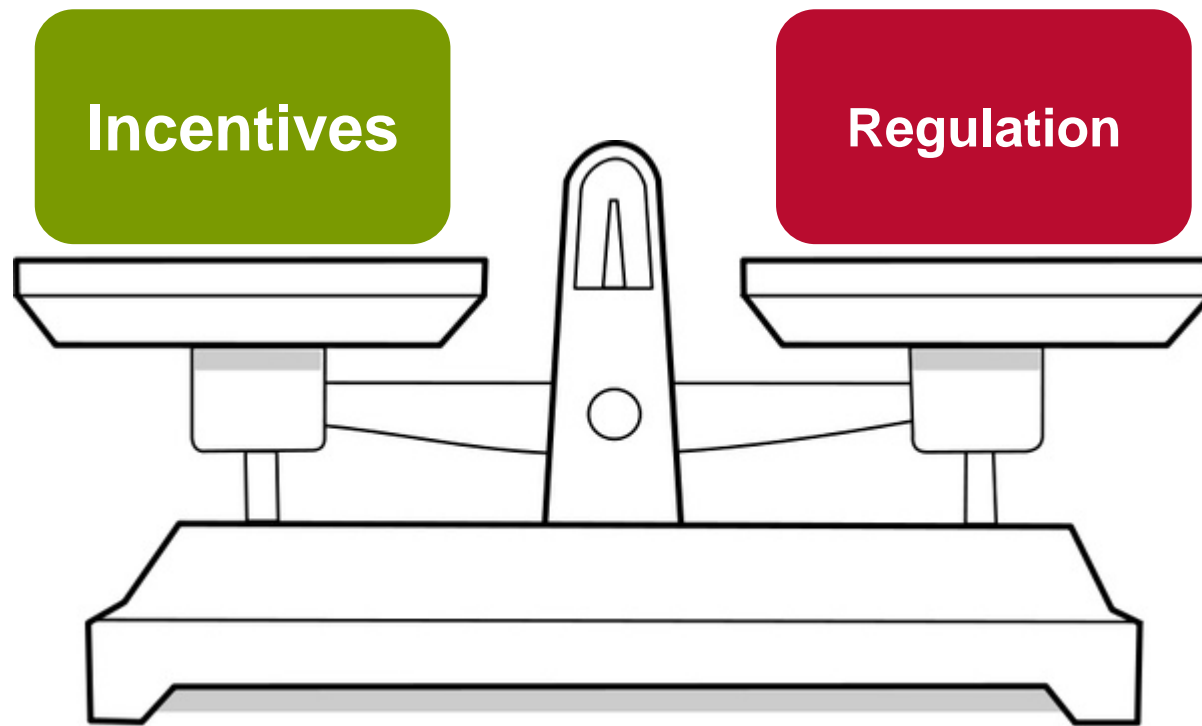

Total project cost: **~\$120,000**

Total approved 2018 heritage grant: **\$7,233**

Cost differential for modern vs. original materials: **3:1**

HALIFAX

Carrot vs. Stick?

Successful conservation, especially under the limitations of existing provincial legislation, requires a balance of incentives (the carrot) and regulations (the stick).

HALIFAX

Existing Incentives Programs

Heritage Incentives Program

- Provides up to \$10,000 in matching grants for conservation work;
- Total annual budget of \$150,000
- Average number of applications per year: 25

HCD Incentives Program

- Tailored to each heritage district
- May include both tax rebates and conservation grants
- Limited program lifespan (5-10 years)

Development Incentives

- Provides additional development rights to owners of heritage properties
- Currently limited to Halifax and Dartmouth Plan Areas

HALIFAX

Proposed Protection Measures

HALIFAX

Permit Fee Waivers

Permit Fee Waivers would result in no fees charged in relation to approved restoration or conservation work on the exterior of the registered heritage property.

Issues

- This initiative would cost the municipality up to \$20,000 in uncollected building and development permit fees per year;
- This is an effective and symbolic incentive that supports conservation while not resulting in additional staff resources or significant costs.

Recommendation

It is recommended that this measure be instituted starting in fiscal year 2020/21.

Heritage Incentive Amendments

The Heritage Incentives Program has had a total budget of \$150,000 and individual grant limits of \$10,000 since its inception in 2003.

Issues

- Inflation, as well as labour and material costs have all gone up considerably since 2003;
- The program has seen increased uptake over the years, with no increase to funding;
- The program creates measurable results, with \$4 spent by property owners for every \$1 of municipal investment in the program.

Recommendation

It is recommended that the total program budget be increased to \$300,000 per year, and individual grant limits be increased starting in fiscal year 2020/21.

HALIFAX

Tax Relief: Non-Profit Organizations

Tax Relief is provided to non-profit groups under AO 2014-001-ADM. Currently, ownership of a registered building may not ensure a higher-rate of tax relief to these organizations.

Issues

- Heritage buildings tend to be much more expensive to maintain, heat and repair;
- Non-profit groups applying for tax relief do not currently receive a lower tax rate based solely on their registered heritage status.

Recommendation

That staff provide a report considering additional tax relief to eligible non-profit groups who own and operate a registered heritage building beginning in fiscal year 2020/21.

Land Use Incentives

Land Use Incentives include additional development rights provided to registered heritage property owners that help to make a property more financially viable and competitive. Currently these take the form of Development Agreements.

Issues

- This tool is very effective and has the possibility of increasing tax revenue to the municipality through increased assessments;
- In return for increased density or additional permitted uses, the existing building is conserved and rehabilitated;
- The tool is currently only available in the Halifax and Dartmouth Plan Areas;

Recommendation

That staff include a region-wide policy for heritage development agreements in the Regional Plan during the next scheduled review.

HALIFAX

Example: 2720 Gottingen Street (Case 20923)

Before and After Renovations

Review of Evaluation Criteria

The Municipal heritage evaluation criteria is the tool that staff and HAC use to determine if a property has enough heritage value to be considered for registration by Regional Council.

Issues

- There are few scoring options for sites relating to under-represented groups;
- Unique and excellent examples of 20th Century architecture are scored poorly due to the points awarded for building age.

Recommendation

That staff and HAC undertake a review of the evaluation criteria, utilizing best-practice to create better representation of modern architecture and under-represented communities in the heritage registry.

HALIFAX

Holding By-law

Holding By-laws are used in other cities and provinces to protect important heritage resources temporarily while the municipality considers formal protection.

Issues

- Several significant heritage buildings have been demolished by their owners while Council considered their registration or inclusion in a heritage district;
- HRM has requested changes to the HRM Charter and Heritage Property Act to address these issues.

Recommendation

That staff continue to work with the Province to act on the previous requests from Regional Council and provide a staff report discussing potential legislative amendments based on best-practice from other jurisdictions.

Measuring the Benefits

Options	Encourages Conservation?	Encourages Registration?	Provides Additional Protection?*	Are the Results Measurable?	Requires Additional Administrative Resources?	Potential Cost to HRM	Staff Response
Heritage Incentive Program	Yes	Yes	Yes	Yes	No	Moderate	Support
Fee Waivers	Yes	No	No	Yes	No	Low	Support
Land Use Incentives	Yes	Yes	Yes	Yes	No**	Low	Support
Heritage Grants for Non-Profit Organizations	Yes	Yes	Yes	Yes	No**	Moderate	Requires Additional Analysis
Expand Tax Relief to Non-Profit Groups	No	Yes	No	No	No**	Low	Requires Additional Analysis
Tax Abatement	Yes	Yes	No	Yes	Yes	Moderate	Await Outcome of CHPP

*Additional Protection includes the registration of waivers on the property title which prevent demolition, or clauses in development agreements which do not allow demolition of the property.

**These measures may require a shifting of resources or re-allocation of time, but could be accomplished with existing staff.

Recommendations

It is recommended that the Community Planning and Economic Development Standing Committee recommend that Halifax Regional Council direct the CAO to undertake staff reports and actions relative to the following:

1. Waiving **permit fees** for conservation work to registered properties;
2. Increasing the **heritage incentives budget to \$300,000 per year** starting in 2020/21;
3. **Increase the funding cap** for residential and commercial properties;
4. Reviewing the level of **Tax Relief to Non-Profit Organizations**;
5. Considering the inclusion of **heritage development agreements** in the Regional Plan;
6. Updating the **municipal evaluation criteria** for heritage properties;
7. Proposing additional measures for the **protection of un-registered heritage properties**;
8. Continuing to **work with the province** to consider amendments to the Charter and Heritage Property Act in support of protecting un-registered heritage resources.
