Halifax Partnership
Economic Snapshot & Update on Activities

Presented to:
Community Planning and Economic Development Standing Committee
January 17, 2019
Economic Growth Plan - Framework

By 2031 we have grown to:
- Population 550,000 (1.7% per year)
- GDP $30 billion (2.9% Per year)

- Ocean Advantage
- Educated/Innovative Community
- Excellent Rural/Urban Lifestyle

- Promote & Maximize Growth
- Attract & Retain Talent
- Make Halifax a Better Place to Live and Work
- Align Economic Development
Most recent Conference Board forecast (from November 2018) calls for 1.4% growth in 2019, rising steadily to 1.7% in 2022.

Halifax’s growth will exceed the provincial rate each year but track slightly below the forecasts for Canada as a whole.

All industrial sectors are forecast to have positive growth over the 2019-2022 period.

GDP growth is progressing but we are not on track to reach the stretch goal of $30 billion in 2031.

The next forecast will be published in February or March.
Population

• Most recent population estimate – 431,701 as of July 1, 2017 – published by StatCan in February 2018; next annual data point out in a few weeks

• 2016 and 2017 were the two strongest years in decades for population growth and international immigration

• Interprovincial migration to Halifax has been net positive for past two years after four years of net negative numbers; intraprovincial migration remains steady

• Next interprovincial youth migration “Game Changer” number will be published soon – our goal of “net zero” appears within reach

• Assuming recent trends continue, we are on track to meet our 2031 population goal of 550,000
Labour Force

- Halifax’s labour force grew to 249,000 in 2018
- The growth from 2017 to 2018 is larger than anything we have seen this millennium, but follows weak growth from 2015 to 2017
- While there is progress, we are not on track to achieve our 2021 goal
- The Conference Board projects unemployment to trend down from 6.5% in 2019 to 5.6% in 2022
- Household income growth will grow faster than the inflation rate, resulting in increased purchasing power
Real Estate

• After reaching a peak in 2017, downtown commercial vacancy rates appear to be beginning their descent

• Given the still high vacancy rates – e.g., 18.5% overall commercial vacancy rate in the central business district in Q3 2018, commercial rents remain stable

• In contrast, the industrial availability rate continues to edge downward, dropping to 7.4% in Q3 2018, while rents have started ticking up
Halifax Regional Municipality will use the economic growth plan as a guide for making decisions and leading initiatives in support of the goals and objectives as outlined in the implementation plan.

The Halifax Partnership will be the coordinating body responsible for tracking and monitoring progress against goals and objectives. It will prepare an annual progress report and present findings at an annual economic forum held each spring.
Strategic Framework – Halifax Partnership’s Annual Business Plan

Promote & Maximize Growth

Halifax Chamber of Commerce and Halifax Partnership present State of the Economy Forum with Mayor Savage

Member of We Choose Now Measurement Team

Ongoing dialogue and collaboration on opportunities for alignment with NSBI, ACOA, Destination Halifax and Halifax Chamber of Commerce

Provide support and mentoring to Nova Scotia Regional Enterprise Networks on Business Retention and Expansion

Created Atlantic Cities Economic Coalition (ACEC) with Atlantic Canada’s seven urban centres

In April, the HRM and the Partnership submitted Halifax’s initial proposal to the Smart Cities Challenge focused on improving access to affordable, healthy food for every resident in Halifax. HRM is tracking future Smart City Challenge funding developments.
Priorities for 2019-20

- Accelerate the Sell Halifax Program – increase and broaden awareness of Halifax’s Talent, Location, Cost and Innovation value proposition in the global market place
- Connect more businesses to resources needed to innovate and grow
- Launch the Halifax Innovation District with a focus on increasing the number of high-growth start-ups and scale-ups
- Present the ANS Action Plan to the Community
- Launch the Connector+ App
- Increase engagement, alignment and collaboration with public and private sector partners
- Maximize on all opportunities to continue to leverage HRM’s investment
