Dear David,

I would like to make a request to be added to the agenda of the Environment and Sustainability Committee's February 7th meeting on behalf of iMatter Halifax to provide an overview and discuss the environmental impacts of offshore drilling and the role that HRM can play in mitigating them.

Cheers!

"If you don't understand, ask questions. If you're uncomfortable about asking questions, say you are uncomfortable about asking questions and then ask anyway. It's easy to tell when a question is coming from a good place. Then listen some more. Sometimes people just want to feel heard. Here's to possibilities of friendship and connection and understanding."
