

# HALIFAX

## A COMPLETE STREETS APPROACH FOR HALIFAX

Transportation Standing Committee  
February 25, 2018

# COMPLETE STREETS

Provide safe and convenient travel options for all ages, modes and abilities.

[www.completestreetsforcanada.ca](http://www.completestreetsforcanada.ca)

**HALIFAX**

# GUIDING PRINCIPLES

- Consider all ages and abilities
- Connect street function and adjacent land use
- Multi-functional and multi-modal
- Connected networks are critical
- Collaboration required
- Contribute to the sustainability of the region

# KEY CONSIDERATIONS

- Street design
- Link/ Place
- Open Space Functions
- Operations/ Maintenance

# IMPLEMENTATION

## FOLLOW THE PAVERS

- Capital projects
  - Internal (street recapitalization, major projects)
  - External (i.e. reinstatement by developers, integration with utilities)

## GET AHEAD OF THE PAVERS

- Functional Planning
- Tactical Projects
- Red Book Review

# FOLLOW THE PAVERS

# FOLLOW THE PAVERS

John Kyle @HeyCornpusher · 12 Dec 2018

From #sneckdown to neckdown. Great job at **Coburg and Robie**, @hfxplanning!  
Much safer for all.

**HALIFAX**

# GET AHEAD OF THE PAVERS

## Tactical Projects

- Spring Garden Stoplet
- Ochterloney/ Wentworth

## Municipal Service Systems Design Guidelines Review

- Initiated
- 18 month timeline
- Consider Design Exemptions and annual updates

# EXPECTED OUTCOMES

- Walking, bicycling, transit become better options
- Complete networks for all modes
- Shift in mode share toward RP goals
- Reduction of collisions and severity of injuries
- Improved streetscape quality, economic vitality, and community health
